Summary

Tech-savvy Product Engineer professional with 3.5+ Years of hands-on experience in product development. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. Experienced in working with both small and large teams across multiple projects and companies. Able to work independently in remote locations or in office environments as needed by the company. I am fluid, focused and willing to learn new things.

Objective

A challenging job in a dynamic and progressive company where my creative talents and innovative capabilities can be efficiently utilized, through hard work, dependability, motivational aspiration and desire to help build the organization to obtain its goals.

Professional Experience

Full Stack Software Engineer | Kenverse | Bangalore, KA | Jan 24 - Aug 24

- Developed and maintained several institutional-level applications, including the Application Portal, Academics Portal, and PFS Portal.
- Independently designed and launched the Certificate Management Application, enhancing document handling efficiency.
- Led a team to drive product innovation and development within the organization.
- Implemented performance optimisations and scalability improvements for existing applications.

Chief Product Officer | One24 | Gurgaon, HR | Jan 23 - Dec 23

- Developing and executing a clear product strategy that aligns with the company's overall business goals and vision
- Overseeing the end-to-end product development process from creativity and design to development, testing and launch.
- Collaborating seamlessly closely with cross-functional teams, including engineering, design, marketing, and sales, to ensure the success of products within the organization.

VP Engineering | One24 | Gurgaon, HR | (Nov 21 - Jan 22, Aug 22 - Dec 22)

- Architected the overall in-flow and out-flow of the system, enhancing operational efficiency.
- Developed the overall system architecture using One24 cross-platform products, optimizing performance and user experience.
- Led the team of engineers in the design and implementation of intricate software systems.

Programmer Analyst Trainee | Cognizant | Bangalore, KA | Feb 22 - July 22

- Designed, implemented & maintained relational database systems using Oracle, SQL, and MySQL.
- Applied object-oriented programming techniques to create efficient and reusable code.
- Established & maintained development environments, ensuring accessibility of necessary tools for all stakeholders.
- Developed and maintained web-based applications using HTML, CSS, and Javascript for the front end and JAVA Spring Boot for the back end in our training approval project.

Software Development Engineer | One24 | Gurgaon, HR | Jan 21 - Nov 21

- Engineered a web-based OS, known as One24OS, contributing to the organization's technological innovation
- Developed mobile applications Flutter, enhancing the company's mobile presence
- Designed and implemented RESTful APIs for One24 products using Nodejs, streamlining communication and integration processes.
